

Amazon Clone Website

Amazon.com, Inc is an American multinational technology company focusing on e-commerce, cloud computing, online advertising, digital streaming, and artificial intelligence. It has been referred to as "one of the most influential economic and cultural forces in the world", and is one of the world's most valuable brands. Amazon was founded by Jeff Bezos from his garage in Bellevue, Washington, on July 5, 1994.

Home Page Description:

Header (left to Right):

- Amazon Logo
- Address Information (Name, City and Area Pin code)
- Category bar (dropdown box)
- Search bar
- Country flag and Select Language
- Customer name and account details
- Return and orders details
- Cart

Navigation Bar:

In the right we will add a one text based image link for latest deals and events.

In the left side of the navigation bar we will add options like

- Sell(Seller's Option),
- Amazon Mini TV
- Best Sellers
- Mobiles
- Customer Service
- Today's Deals
- Electronics
- Prime and Amazon Pay Payment Option.

Slider Menu:

After adding header and navigation section we will add a slider menu which will act as a quick overview to the latest and upcoming events, offers, today's deals, web series and movies promotion and any other important information.

Tile Details:

In the next part we have to add multiple tiles displaying offers and deals regarding different categories for advertise. In each tile we will add product's image along with their name, detail about product and their price.

Footer menu:

In the footer we will divide the whole section in four different parts:

- In the first part we will add a link that will take us to the top of the page.
"Back to Top"
- In the second part we will add details related to the Amazon and how it works, social media links, contact and help section, seller's section etc.
- In the third part there will be a language selection part where user can select their preferred language depending upon the country.
- In the last section we will add links for different Amazon products like
 - Amazon Web Services for cloud computing,
 - Audible for audio books,
 - DPReview for Digital Photography,
 - Amazon Prime for Prime membership,
 - Amazon Business for Business related options,
 - IMDb for ratings of movies, TV and celebrities,
 - Prime music for music streaming.
